State Skill Development Fund (SSDF)

A Comprehensive Overview

The **State Skill Development Fund (SSDF)** is a dedicated financial mechanism established by the Government of Uttar Pradesh with the objective of providing financial strength to the **Uttar Pradesh Skill Development Mission (UPSDM)**. Through this fund, skill training is provided to the youth of the state according to their local and regional requirements.

While Central Government schemes (such as PMKVY) operate within fixed guidelines and limitations, SSDF provides flexibility to the State Government to extend skill training to those youths who are not covered under Central schemes for various reasons.

1. Objectives and Vision:

The primary goal of SSDF is to transform the vast youth population of Uttar Pradesh into a skilled, capable, and employment-oriented workforce. Its major objectives are as follows:

- ❖ **Universal Access:** To provide free vocational training to youths who are not included in the priority categories of Central Government schemes.
- ❖ **Top-Up Support for Targets:** To provide additional financial assistance for achieving the state's skill development targets when Central allocations are insufficient.
- ❖ **Local Need-Based Training:** To prepare a skilled workforce for local industries, artisans, and enterprises in alignment with initiatives such as **One District One Product (ODOP)** of the Government of Uttar Pradesh.

2. Eligibility and Beneficiary Categories

The SSDF scheme is based on the concept of inclusive development and ensures effective utilization of the state's demographic dividend:

- ❖ **Age Limit:** Primarily for youths between 14 to 35 years of age.
- ❖ **Domicile:** The beneficiary must be a permanent resident of Uttar Pradesh.
- ❖ **Educational Qualification:** Eligible candidates include school dropouts after Class 5 as well as unemployed graduates. Some of the courses are available for those ones who are able to read and write.
